PROFESSIONAL SUMMARY

Full-Stack Developer with 6+ years building, modernizing, and scaling web applications across fintech, SaaS, and e-commerce. Deep expertise in React, Next.js, Angular and TypeScript, complemented with backend work in Node.js/Express and Python/FastAPI, and AI integrations with LangChain/LangGraph.

WORK EXPERIENCE

Software Engineer March 2025 – September 2026

Mercado Libre

- Designed and delivered customer-facing features across a large-scale fintech platform, owning end-to-end development cycles from architecture to production deployment.
- Served as on-call engineer for production incidents, resolving critical issues within SLA targets to maintain 99.9%+ platform availability.
- Drove code review and engineering standards across the team, improving code maintainability and reducing defect rates through consistent best-practice enforcement.

Front-End Developer April 2023 – March 2025

Satoshi Tango

- Led the redesign and modernization of web and mobile applications, delivering a cohesive, up-to-date user experience aligned with current platform standards (end-to-end).
- Migrated legacy AngularJS codebases to modern React-based architectures, significantly improving code maintainability, performance, and long-term scalability.
- Built a reusable UI component library that ensured design consistency across products and accelerated feature delivery.

Front-End Developer & UX/UI Designer August 2021 – January 2023

MailUp

- Co-led development of a next-generation marketing automation platform, delivering features from architecture design through production deployment.
- Engineered customer segmentation modules and automation workflows that enabled data-driven targeting and reduced manual campaign setup time.
- Built a visual code builder streamlining campaign creation, lowering the technical barrier for non-developers to independently launch marketing initiatives.

Front-End Developer July 2020 – June 2022

Tanzee Solutions

- Translated Figma and Adobe XD design systems into pixel-perfect, production-ready web applications with full responsive and cross-browser compatibility.
- Architected high-converting landing pages and e-commerce experiences for multiple clients, managing delivery from concept through deployment.
- Delivered iterative UI enhancements and seasonal campaign builds, ensuring on-brand, on-schedule launches that sustained user engagement and conversion.

SKILLS

Frontend: React, Next.js, Preact, Angular, AngularJS, Vue.js, Vuex, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, MUI (Material UI), Ionic

Backend: Node.js, Nest.js, Express, Jest, REST APIs, Python, FastAPI, Supabase, PostgreSQL

AI: LangChain, LangGraph, MCP (Model Context Protocol), Claude Code, AI-assisted development

Engineering practices: CI/CD, Test-Driven Development (TDD), Spec-Driven Development (SDD), Code Reviews, Agile/Scrum, Performance Optimization, Responsive Design, Component-Based Architecture

Tools: Git, GitHub, Docker, Datadog, Grafana, Postman, Figma, Adobe XD, Charles Proxy, Xcode

LANGUAGES

Spanish (Native), English (C1 — EF SET Advanced)
